

From Drones to Shelters – Practical Solutions for Civil Protection at PROTEGA 2025

On 24–25 November 2025, the first edition of the PROTEGA Trade Fair of Civil Protection and Civil Defence will take place — an event bringing together in one place manufacturers, distributors, and experts in crisis management, rescue operations, civil protection, and civil defense.

Visitors will have the opportunity to explore a comprehensive exhibition of technologies, equipment, and solutions that directly support civil safety. Among the exhibitors will be companies offering:

- **communication and critical communication systems**, including radio and satellite networks for crisis management centers,
- **drones and threat detection systems** supporting rescue operations and crisis monitoring,
- **rescue and medical equipment** – defibrillators, training manikins, wound care kits, and search-and-rescue gear,
- **infrastructure solutions** – tents, shelters, bunker ventilation systems, water tanks, and flood barriers,
- **long-term food supplies, water purification systems**, and field kitchens ensuring autonomy and logistical support in the field,
- **personal protective equipment** – bulletproof vests, ballistic plates, protective clothing, and detection devices.

This diverse range of products will allow visitors to discover the latest technologies that enhance civilian safety in any crisis situation.

Why Take Part in PROTEGA?

PROTEGA 2025 is designed for those who ensure our safety every day — representatives of rescue services, local governments, public administration, and companies providing critical technologies.

For visitors, PROTEGA offers a unique opportunity to learn about the latest solutions in crisis management, civil protection, and civil defense, exchange experiences, and establish valuable contacts with manufacturers and security services.

For exhibitors, participation in the fair is a chance to showcase their offerings to decision-makers, representatives of central and local administration, and uniformed services — all those shaping the future of public safety.

Up-to-date information about PROTEGA 2025 is available on the [official website](#) and social media channels — join us on [Facebook](#) and [LinkedIn](#).
